

SABAAF SKILL UI/UX BLUEPRINT v1.0

Design Philosophy

Sabaaf Skill is not a corporate company, SaaS product, or government institution.

It is a creative digital academy.

The website must communicate:

- Inspiration
- Creativity
- Professionalism
- Trust
- Student Success

The design should encourage visitors to imagine themselves becoming skilled creators.

Design Principles

Principle 1

Real People Over Stock Photos

Only use actual Sabaaf Skill assets whenever possible.

Use:

- Graduation photos
- Classroom photos
- Student photos
- Founder photos

Avoid stock images.

Principle 2

Visual Storytelling

Every image should have a purpose.

Classroom photos: Show learning.

Graduation photos: Show achievement.

Student photos: Show transformation.

Founder photos: Show leadership.

Principle 3

Mobile First

Most visitors are expected to come from:

- TikTok
- Facebook
- Telegram

The experience must be optimized for mobile devices before desktop.

Principle 4

Conversion Focused

Every page should encourage registration.

Primary CTA:

Galmaa'i Amma

Secondary CTA:

Barnoota Ilaali

Success Criteria

Visitors should leave the website with three conclusions:

1. Sabaaf Skill is professional.
2. Sabaaf Skill produces real results.
3. I want to register and learn here.
